USDA ANNOUNCES FEDERAL FUNDING

(Concord-Robbins Water Supply Corporation to Receive a \$3,480,000 Water and Waste Disposal Loan and Grant)

Concord, Texas, October 24, 2002 — Bryan Daniel, state director, Texas USDA Rural Development announced today that Concord-Robbins Water Supply Corporation received a \$3,480,000 loan and grant through the agency's Rural Utilities Service Water and Waste Disposal program. The effort is part of USDA's national program to help provide rural areas with safe, dependable water and modern sewage systems.

"One of the goals of USDA Rural Development is to provide water and wastewater treatment programs that target public health benefits and provide economic opportunities to America's rural communities," said Daniel. "Rural residents can utilize our programs to help provide essential public services that will enhance the quality of life for all rural residents."

The funds will be used for adding two new wells, three new plants, 84.65 miles of pipeline, and 190,000 gallons of storage to the existing system. Population served by this project is 3,000.

In Fiscal Year 2001, \$65.5 million of loan and grant assistance was infused into 29 rural Texas communities. USDA's water and wastewater program is designed to bring fresh, clean drinking water and sanitary, environmentally sound sewage facilities to rural America's 53 million residents. Loans and grants are available to rural communities of fewer than 10,000 residents. Public bodies, corporations operated on a nonprofit basis, and Indian tribes, that are unable to obtain credit from other sources at reasonable rates and terms, are eligible for assistance.

For more information regarding USDA Rural Development programs, contact the Huntsville Local Office at (936) 291-1901, Ext. 4.

USDA Rural Development is an Equal Opportunity Lender, Provider, and Employer. Complaints of discrimination should be sent to: USDA, Director, Office of Civil Rights, Washington, D.C. 20250-9410.
